

PRODUCTS LIST

OMRI has determined the following products are allowed for use in accordance with National Organic Program (NOP) standards, for the use indicated and in keeping with any applicable use restrictions as specified. Producers should consult with their USDA-accredited certifying body before using any new products. Updated **February 5, 2026**.

CATEGORIES

Crop Products

Crop Fertilizers and Soil Amendments

Acetic Acid

HGS-1973 0-0-10 (Humic Growth Solutions) hgs-21335

NACHURS Pura-K 0-0-10 Premium Liquid Starter & Foliar Fertilizer (Nachurs Alpine Solutions) naz-21467

Vinagre de alcohol de caña al 10% de concentración, sin filtrar (Vinagre de Sinaloa S.A. de C.V.) vss-18044

Activated Charcoal

Black Owl Premium Organic Biochar Soil Amendment (Biochar Supreme, INC) bsu-15425

Garden Valley Naturals All Natural & Organic Biochar (Rexius Forest By-Products) rex-6103

NAKED Char 5M Soil Amendment (American BioChar Company) abf-17021

NAKED Char Soil Amendment (American BioChar Company) abf-12011

Alfalfa Meal or Pellets

Down To Earth All Natural Fertilizers Alfalfa Meal 2-0-1 (Down To Earth Distributors, Inc.) det-17084

Lighthouse Alfalfa Meal 2-0-1 (Wilbur-Ellis Company, LLC) wec-16865

PAR4 Protein Meals Alfalfa Meal 2.5-0-2.5 Fertilizer (Bridgewell Agribusiness, LLC) npt-9999

Pro-Pell-It! Alfalfa Meal Non-Pelletized Amendment 2.25-0-2 (Marion Ag Service, Inc.) mas-20910

Pro-Pell-It! Alfalfa Meal Non-Pelletized Fertilizer 2.5-0-2.5 (Marion Ag Service, Inc.) mas-10028

TRUE Organic Products, Inc True Alfalfa Meal (True Organic Products, Inc.) top-8991

Amino Acids

Amino Acid 80% Powder (XIAMEN TOPUSING CHEMICAL CO.,LTD.) xib-15685

◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

① The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

② The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

④ The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑤ The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑥ The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑦ The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑧ This product contains more than 1,000 MPN/g fecal coliform. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

⑨ This product contains more than 3 MPN/4g Salmonella. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

Fertilizers, Blended with sodium nitrate

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Fertilizers, with high ammoniacal nitrogen

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Acid Activators for Chlorine Dioxide

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops. Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii).

Hypochlorous Acid

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Bordeaux Mixes

For plant disease control. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

BORDEAUX MIXTURE WG 20 BORDEAUX WG (CUPRICA S.A.C.) cuh-22804

Boric Acid

May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May be used as an insecticide for structural pest control (for example, wood treatment) provided there is no direct contact with organic food or crops.

Copper Sulfate

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Soap, Ammonium

For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AXXE® Broad Spectrum Herbicide (BioSafe Systems) bss-2930

Sodium Carbonate Peroxyhydrate

For use as an algicide. Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioSafe Systems GreenClean Granular Algaecide (BioSafe Systems) bss-13190

Sticky Traps and Barriers

For use as an insecticide. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tanglefoot Ready To Use Tree Tanglefoot Insect Barrier (The Ortho Group) *ort-0118*

Sucrose Octanoate Ester

Must be used in accordance with approved labeling. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

OrganiShield Biochemical Insecticide (Organic Liquid Spray, LLC) *phe-17103*

Summer Oils

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics Vista Clear Spray Oil II (Mar Vista Resources) *mav-13598*

Trichoderma spp.

May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
