◆ This product is allowed with restrictions.
See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and
approved for use in NOP organic production by
OMRI.

① The arsenic level of this product exceeds 10ppm.
Application to certified organic farms must not
contribute to contamination of crops, soil, or water.

② The arsenic level of this product exceeds 20ppm.
Application to certified organic farms must not
contribute to contamination of crops, soil, or water.

④ The lead level of this product exceeds 90ppm.
Application to certified organic farms must not
contribute to contamination of crops, soil, or water.

⑤ The lead level of this product exceeds 180ppm.
Application to certified organic farms must not
contribute to contamination of crops, soil, or water.

⑥ The cadmium level of this product exceeds
20ppm. Application to certified organic farms must
not contribute to contamination of crops, soil, or
water.

⑦ The cadmium level of this product exceeds
40ppm. Application to certified organic farms must
not contribute to contamination of crops, soil, or
water.

⑧ This product contains more than 1,000 MPN/g
fecal coliform. Application of this product on
certified organic farms poses a significant risk of
contributing to contamination of crops, soil, or water.
Pathogen mitigation measures, such as a 120/90
day pre-harvest application period or composting
as described at §205.203 of the National Organic
Program Regulations, must be part of an organic
system plan to reduce the contamination risk of this
product.

⑨ This product contains more than 3 MPN/4g
Salmonella. Application of this product on
certified organic farms poses a significant risk of
contributing to contamination of crops, soil, or water.
Pathogen mitigation measures, such as a 120/90
day pre-harvest application period or composting
as described at §205.203 of the National Organic
Program Regulations, must be part of an organic
system plan to reduce the contamination risk of this
product.
